Lumina

Shines in both loss prevention and advertising

KEY FEATURES

> Highly reliable system with high detection rate
> Quick and easy ad graphic placement
> Can be synchronized with multiple systems
> Sensitivity adjustment reduces false alarms
> Built-in jammer detection
> Network connection and I/O port for easy integration with other LP systems
> People counting and alarm verification
> RFID ready version available
> Optional remote tuning capability can reduce maintenance costs and downtime
> Optional booster-bag detection

SPECIFICATIONS

> Frequency: 58 kHz, 8.2 MHz or RFID
> Dimensions: 17.9" W x 66.1" H x 2.17" D (45.4 cm x 168 cm x 5.5 cm)
> Base depth: 3.7" (9.5 cm)
> Weight: 27.5 lbs (12.5 kg)
> Advertising panel dimensions: 56.3" x 14.72" (56.3" x 14.1" visible)
> Detection range: Up to 7' (between two pedestals)
> Power requirement: 115V/60Hz or 230V/50Hz, 35W max, internal PS embedded (external power supply available)
> Alarm mode: Buzzer and RGB alarm indicator
> Operating temperature: 32° F - 95° F
> Relative humidity range: 0 - 90%, non-condensing

FREQUENCY	BACKLIT?	ORDER CODE
58 kHz (AM)	Yes	PA450 AM TRX LGP
58 kHz (AM)	No	PA450 AM TRX
58 kHz (AM) + RFID	No	PA450 AM TRX RFID
8.2 MHz (RF)	Yes	PA450 RF TRX LGP
8.2 MHz (RF)	No	PA450 RF TRX
8.2 MHz (RF) + RFID	No	PA450 RF TRX RFID
RFID only	No	PA450 UHF RFID
